

# KastleSignatureReader®

PERSONALIZED ACCESS READERS COMPLEMENT YOUR DESIGN

The design and aesthetics of your space are an important part of your total environment and a significant amount of effort and expense go into achieving the optimal atmosphere. Unfortunately, the technologies that keep you safe and secure can often be aesthetically inconsistent with the design of your space. No longer. Finally, there is a way to access your space that is both beautiful and functional: the Kastle SignatureReader.

Priced at just a slight premium compared to basic models, the Kastle SignatureReader allows you to blend intelligent security with pleasing aesthetics. With your logo etched into a crystal-clear back-lit facade, this customization enhances the overall design of your space, impresses visitors and reinforces your brand. With a variety of frames and finishes to choose from, you can customize the Kastle SignatureReader to complement any environment. Who knew security could look this good?
